IEEE INTERNATIONAL SYMPOSIUM ON SENSORLESS CONTROL FOR ELECTRICAL DRIVES

September 9 -10, 2019 - Torino (Italy)

SLED is the **IEEE International Symposium on Sensorless Control for Electrical Drives** presenting the state of the art and future perspective of Sensorless Drives. The Symposium will present the latest advancements and future perspectives of sensorless control for electric motor drives and grid-connected converters, gathering international experts from the academia and the industry.

We would be delighted to have your input at the symposium and your contribution to discussions on present trends and opportunities in this field.

Contributed Papers

Original technical papers are solicited on any subject pertaining to the scope of the conference that includes, but is not limited to the following topics:

- States estimation for motion control and grid-connected converters
- Self-commissioning
- Condition monitoring
- Machine design for sensorless control
- Impact of machine design on sensorless control performance
- Implementation issues of sensorless control for real products
- Emerging applications for sensorless control

IMPORTANT DATES

- Full papers submission: March 03, 2019
- Notification of acceptance: June 03, 2019
- Deadline for final manuscripts: July 27, 2019

All papers accepted and presented at SLED 2019 will be included in **IEEEXplore®**. In addition to the technical sessions, Special Invited Lectures on the emerging topics of Sensorless Motor Control Strategies and Sensorless Oriented Motor Design will be included in the conference program.

The upcoming official conference website can be visited at the address:

General Co-Chairs

Gianmario PELLEGRINO, Politecnico di Torino, Italy
Radu BOJOI, Politecnico di Torino, Italy

Technical Program Chair

David DIAZ REIGOSA, University of Oviedo, Spain

A friendly dinner, an entertainment program for participants and accompanying persons and an exciting weekend in fascinating historical places will be proposed to all attendees.

We are looking forward to see you in Torino at the Valentino Castle!
